Another reason having a CNA Study Guide on hand is super important is that once you become a certified nursing assistant, you will only have certification for that particular state. So, if you move to another state at some point in your life, you will have to re-certify in that state. That may sound easy, considering you might have done it for years before moving...however, imagine taking the drivers test again after all those years of learning how to really drive a car. You probably don't follow all of the rules, right? Well the same can happen to a CNA. They can develop the "get it done the right way" type

attitude which won't test well on the certification exam. 10 out of 10 must have for all CNA's~CNA Exam Cram
